Processes and training are accredited by Coeliac UK and in place to ensure that meals on this menu are gluten free. Gluten free describes foods that contain gluten at a level of no more than 20 parts per million (ppm). There is a dedicated gluten free fryer for gluten free menu items. Because we rely on our suppliers for accurate information, our made-from-scratch menu and normal kitchen operations involving shared cooking and preparation areas, including common fryer oil, we cannot completely eliminate the risk of food items coming in contact with other food products or the risk of inaccurate allergen information being provided to us. Due to these circumstances, we are unable to guarantee that any menu item can be completely free of allergens, but we do take every precaution possible. \*Consuming raw or undercooked hamburgers, meats, poultry, seafood, shellfish or eggs may increase your risk of foodborne illness, especially if you have certain medical conditions. We hold allergy information for all menu items, please speak to your server for further details. If you suffer from a food allergy please ensure that your server is aware at time of order. †Contains nuts or seeds. 2000 calories a day is used for general nutrition advice, but calorie needs vary. Additional nutritional information is available upon request.
